Linn County, Iowa

LINN COUNTY PUBLIC HEALTH  
AIR QUALITY DIVISION

**Annual Certification and Compliance Report**

**Area Source Rule for Nine Metal Fabrication and Finishing Source Categories**  
40 Code of Federal Regulations (CFR) 63.11514 – 63.11523 (Subpart XXXXXX) (6X)

**For reporting period:**

*This annual certification and compliance report is due no later than January 31<sup>st</sup> of the following year.*

**Facility Information**

Company Name:		Facility Number (if known):		
Facility Street Address:		City:	State:	Zip:
Owner/Operator Name and Title:	Phone number:		Email (if available):	
Mailing Address (if different from facility street address):		City:	State:	Zip:
Facility SIC code(s):		Facility NAICS code(s):		

**Method 22 Visible Emissions Monitoring**

Method 22 visible emissions monitoring is required for:

- Welding operations, if the facility-wide usage of MFHAP-containing\* welding rod or wire is 2,000 pounds or more annually
- Dry abrasive blasting of objects over 8 feet in any dimension, if blasting is done without a filtration control device, and MFHAP\* are emitted

\*Metal fabrication and finishing HAP (MFHAP) means any compound of the following metals: cadmium, chromium, lead, manganese, or nickel, or any of these metals in the elemental form, with the exception of lead.

**Check the box below that best applies to your situation:**

- Method 22 visible emissions monitoring is not required for this facility.
- Method 22 visible emissions monitoring is required for this facility. Visible emissions **were not** found to be "present" during this annual reporting period. (Visible emissions are considered to be "present" if they are detected for more than six minutes of the fifteen minute test period.)
- Method 22 visible emissions monitoring is required for this facility. Method 22 visible emissions **were** determined to be "present" during this annual reporting period. The following information is included with this report:

- All dates on which Method 22 visible emissions were found to be "present";
- A description of the corrective actions taken subsequent to the test; and
- The date and results of follow-up visible emissions monitoring performed after the corrective actions. *Note: For welding operations, if visible emissions are found to be "present" more than once per year, additional reporting documentation is required.*

**Certification**

**Check the appropriate box below:**

- This facility complied with all applicable 6X requirements during the reporting period.
- This facility did not comply with all applicable 6X requirements during the reporting period. Please explain the reason below, and describe any corrective action taken.

**Explanation of Noncompliance:**

**I certify the truth, accuracy, and completeness of this report.**

Responsible Official Name	Responsible Official Signature	Date

**Submittal Instructions**

*Submit this notification to the following agency. Be sure to keep a copy of this notification on file at your facility.*
